Allowable Subject Matter

1. Claims 29-36 and 38-43 (which will be renumbered as 1-14) are allowed in view of the incorporation of the limitations recited in objected claim 37 (which is now cancelled) into independent claim 29.
2. The following is an examiner's statement of reasons for allowance: As the Examiner properly pointed out in the previous Office Action, the closest prior art of Capps, et al. does not teach or fairly suggest at least one other data field that maintains color information related to a color of the electronic ink data, and further comprising other functionality associated with the data structure to enable the executable code to modify the color information. It is for this reason and in combination with all of the other elements of the claims that claims 29-36 and 38-43 are allowable over the closest prior art of Capps, et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
